

CEU Course Suites

DOT Driver Compliance Suite

This suite covers important U.S. Department of Transportation (DOT) rules that all Commercial Motor Vehicle (CMV) drivers are required to follow. They include driver qualifications, the revised Hours of Service regulations, log book documentation, requirements for inspections, and safety equipment needed on board a truck and some Hazardous Materials (HAZMAT) issues.

Courses

DOT Driver Compliance
 Drug and Alcohol Awareness
 Diet & Exercise
 IACET Survey

Price: \$59 | **Time: 189** | **CEU: 0.3**

Driver Safety - Large Vehicle Suite

This suite of driver safety courses is ideal for drivers of larger vehicles/trucks (delivery drivers, tractor trailers). It covers defensive driving, general fleet safety, safety backing and turning, towing trailers, road rage, and other safe driving techniques.

Courses

Avoiding Rear-End Collisions
 Hazards of Changing Lanes
 Defensive Driving
 Distracted Driver
 Extreme Driving Conditions
 Fleet Safety
 Hazards of Speeding
 Road Rage
 Safe Backing and Turning
 Tailgating
 Towing Trailers
 IACET Survey

Price: \$219 | **Time: 334** | **CEU: 0.5**

Driver Safety - Small Vehicle Suite

This suite of driver safety courses is ideal for drivers of smaller vehicles/trucks (sales reps driving cars, smaller service trucks, pick-up trucks). It covers defensive driving, general fleet safety, safety backing and turning, towing trailers, road rage, and other safe driving techniques.

Courses

Avoiding Rear-End Collisions
 Hazards of Changing Lanes
 Defensive Driving
 Distracted Driver
 Extreme Driving Conditions
 Fleet Safety
 Hazards of Speeding
 Road Rage
 Safe Backing and Turning
 Tailgating
 Towing Trailers
 IACET Survey

Price: \$219 | **Time: 342** | **CEU: 0.6**

Electrical Safety Suite

Statistics show hundreds of people are electrocuted in U.S. workplaces every year. This suite offers an NFPA 70E overview course, electrical safety training courses for both low and high voltage workers, and a course on the control of hazardous energy (Lockout/Tagout).

Courses

Electrical Hazards NFPA 70 E Overview
 Electrical Safety - Introduction to NFPA 70E 600 Volts or Less
 Electrical Safety - Introduction to NFPA 70E 600 Volts or Greater
 Lockout/Tagout
 IACET Survey

Price: \$79 | **Time: 217** | **CEU: 0.4**

Food Service & Distribution Suite

This suite focuses on Process Safety Management in the food service and distribution arena with an emphasis on the safe handling of ammonia and delivery driver safety procedures. It is a nice companion to PureSafety's HACCP Suite.

Courses

- Service Process Safety Management - Food Industry
- Food Service & Distribution - Ammonia
- Food Service & Distribution - Delivery Driver Safety
- Food Service & Distribution - Delivery Procedures
- IACET Survey

Price: \$79 | Time: 329 | CEU: 0.5

HACCP Suite

It's estimated that more than 76 million cases of foodborne illness – including 325,000 hospitalizations and 5,000 deaths – occur annually from foodborne illness. The seven part suite discusses essential HACCP components; Hazard Analysis, Critical Control Points, Critical Limits, Monitoring Procedures, Corrective Actions, Verification Procedures and Recordkeeping/Documentation.

Courses

- Hazard Analysis
- Critical Control Points
- Critical Limits
- Monitoring Procedures
- Corrective Actions
- Verification Procedures
- Recordkeeping and Documentation
- Sanitation
- IACET Survey

Price: \$159 | Time: 222 | CEU: 0.4

Hazmat Suite

In the U.S. alone, billions of tons of hazardous material is transported by highway, air, rail and vessel each year. This 11-part suite of courses covers carrier requirements, proper documentation, packaging specifications, and use of the HAZMAT Table, all in an effort to help hazardous material shippers comply with and understand HAZMAT regulations.

Courses

- Introduction to HazMat Transportation
- The Hazardous Materials Table
- Shipping Papers
- Packaging
- Marking and Labeling
- Placarding
- Carrier Requirements - Highway
- Carrier Requirements - Air
- Carrier Requirements - Rail
- Carrier Requirements - Vessel
- Security Awareness
- IACET Survey

Price: \$219 | Time: 304 | CEU: 0.5

HAZWOPER Suite

This suite can be used for new employees and as a refresher course. 29 CFR 1910.120 regulations mandate training for all individuals who are involved in Hazardous Waste Operations or in emergency response to hazardous substance releases - this is usually called HAZWOPER training. All new employees must be trained before entering work assignments in the scope of this standard and contaminated work zones. Completing this suite meets the First Responder - Awareness Level requirements set by OSHA in 1910.120(q)(6)(i).

Courses

Scope, Application and Training Requirements
Environmental Issues for HAZWOPER
Hazard Communications
Hazard and Risk Assessment Techniques
Toxicology
Monitoring and Medical Surveillance
Respiratory Protection
PPE
Confined Space
Spill Prevention
Site Control
Decontamination
Emergency Response
IACET Survey

Price: \$259 | **Time: 559** | **CEU: 0.9**

Health & Wellness Suite

The focus on health and fitness seems to intensify every year. In the U.S. for example, the rates of obesity are increasing, stress levels keep going up and the misuse of alcohol and drugs on and off the job is highly prevalent. PureSafety's Health & Wellness Suite offers courses on diet and exercise, stress reduction, drug, alcohol and smoking awareness courses.

Courses

Diet and Exercise
Drug and Alcohol Awareness
Living a Less Stressful Life
Tobacco and Smoking Awareness
IACET Survey

Price: \$79 | **Time: 230** | **CEU: 0.4**

OSHA 10-Hr Course for Construction (English & Spanish)

Recognized throughout the construction industry as a solid baseline of safety training, this 10-hour Outreach Training program meets the criteria outlined by OSHA's outreach training initiative. This program is ideal for all construction workers, including project managers and superintendents. Each worker who completes the course will receive a completion card from the Department of Labor. Although many safety topics are covered in this program, it should be noted that construction workers, based on their job specific assignments, will require additional training as designated by OSHA standards.

Courses

Introduction to OSHA
Electrical Safety
Fall Protection
Hand & Power Tool Safety
Ladder Safety
Scaffolding
Health Hazards in Construction
Welding, Cutting & Brazing
Basic Rigging
Fire Extinguishers
Hazard Communication
Material Handling & Storage
Confined Spaces
Personal Protective Equipment (PPE)

Price: \$119.00 | **Time: 630** | **CEU: 1.0**

OSHA 10-Hr Course for General Industry

The 10-hour Outreach Program for General Industry is a series of safety courses which target the most commonly dealt with topics found in 29 CFR 1910. Employers and employees alike will benefit greatly from information provided in this program. Ideal for newly hired employees to ensure that they are given a broad overview of the role that OSHA plays in the workplace as well as their own personal roles and responsibilities regarding safety. The curriculum has been authorized by OSHA. Each person who successfully completes the program will receive a completion card issued by the U.S. Department of Labor.

Courses

- Introduction to OSHA
- Electrical Safety
- Walking/Working Surfaces
- Egress, EAP & Fire Protection
- Introduction to Industrial Hygiene
- Hazard Communication
- Material Handling & Storage
- Ergonomics
- Confined Spaces
- Personal Protective Equipment (PPE)
- Welding, Cutting & Brazing
- Machine Guarding
- Hand and Power Tool Safety

Price: \$119 | **Time: 762** | **CEU: 1.0**

Roofing Safety Suite

Due to the risky nature of roofing work and the heights from which most of the work is conducted, injuries in this industry tend to be severe. This suite focuses on minimizing the inherent risks by offering courses on fall prevention and protection, proper tool and PPE use, heat stress and housekeeping.

Courses

- Fall Prevention and Protection
- Ladder Safety for Construction
- Heat Stress
- PPE Overview
- Housekeeping
- Hand & Power Tool Safety
- Scaffold Safety Awareness
- IACET Survey

Price: \$39 | **Time: 288** | **CEU: 0.5**

Telecommunications Suite

Telecommunications technicians face unique hazards. Highlights of this suite include courses on battery safety, RF training, confined space (vaults), towing trailers (including generators) and fall prevention and protection.

Courses

- Battery Safety for Telecommunications
- Fall Prevention and Protection
- RF Training
- Hazard Communication
- Walking Working Surfaces
- Excavation and Trenching Safety for Construction
- Confined Space
- Electrical Hazards NFPA 70 E Overview
- First Aid
- Bloodborne Pathogens
- CPR/AED
- PPE Overview
- Preventing Back Injury
- Towing Trailers
- IACET Survey

Price: \$279 | **Time: 613** | **CEU: 1.0**

Welding & Hot Work Suite

Welding and other types of hot work not only present a fire hazard but also physical hazards to employees; including burns and flash injuries. This suite covers fire safety, and fire extinguisher and safe hot work practices designed to reduce and prevent personal injury and property damage.

Courses

- Hot Work
- Welding, Cutting, Brazing
- Fire Extinguisher
- Fire Prevention and Safety
- Housekeeping
- IACET Survey

Price: \$99 | **Time: 208** | **CEU: 0.3**
