

CONVENIENT DO-IT-YOURSELF TRAINING MATERIALS

The PureSafety Learning Management System gives you access to a fully integrated, self-service Content Creation System (CCS). Convenient and cost-effective, the CCS add-on makes it easy to edit PureSafety's off-the-shelf training courses or create your own rich media materials tailored to your specific needs.

The Power to Create

CCS makes it easy to turn incidents from your workplace into interactive learning moments that drive home safety messages, raise awareness and enhance employee learning. By documenting an incident right after it occurs, you can turn it into a powerful learning moment that can prevent future incidents. Our Incident Flash Report templates include options for:

- **Incident Details:** Walk your employees through the incident as it unfolds
- **Knowledge Sharing:** Identify potential causes to reinforce safe work practices and promote behavior change
- **Lessons Learned:** Clearly define the takeaway concepts your employees should focus on to ensure a safer, healthier workplace

Key Features Include:

- Intuitive user interface
- Simple text, image, audio and interactive learning activity customization
- Smart, easy-to-use templates for creating incident flash reports, HR bulletins and related learning materials
- Built-in course versioning and categorization
- Preview function showing courses exactly as learners will experience them for maximum quality assurance
- AICC/SCORM course publishing for seamless delivery on the PureSafety's Safety Management System or any compatible third-party software system

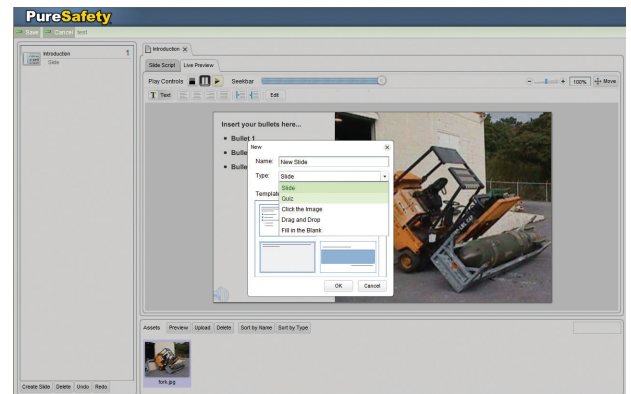

CONTENT CREATION SYSTEM

The Power to Customize

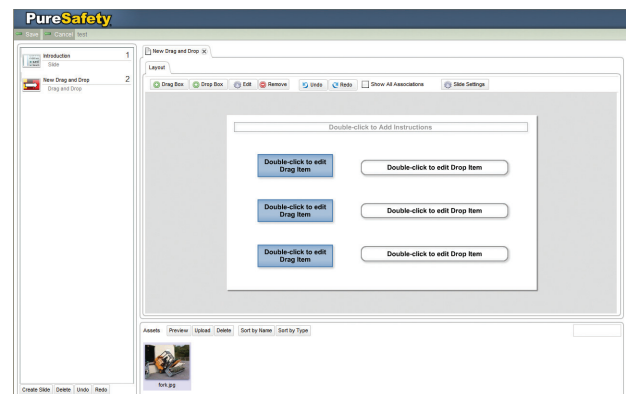

CCS empowers you to efficiently and affordably customize, manage and deploy any of PureSafety's world-class online training courses in a fraction of the time required by traditional development environments. You can tailor everything you see, hear or read to meet your training goals, including:

- Corporate branding and colors
- Course narration
- Photos, graphics and text
- Learning activities, brainteasers and test questions
- Language
