

# Helping You to Maximize OHM

PureSafety understands that the value of our solutions depends on your ability to leverage their powerful features. To help you maximize the value of our innovative software solutions and integrate them with existing processes, PureSafety provides comprehensive training services.

## New Client Training

Our experienced, service-focused professionals will guide you through every step of using OHM – customized to your specific workflow.

- 3-day administrative training tailored for any industry – Focused on individuals who will support and administer the OHM application
- 3-day basic boot camp – Focused on individuals who will utilize OHM in their daily work flow
- Additional day for customized training on the Safety Module – Focused on individuals who are safety resources
- Additional day for customized training on the Clinical Suite – Focused on individuals who will utilize billing in their daily workflow

## Software Upgrade Training

When you upgrade to a new version of our software, our Client Services Team is available to guide you through the transition and maximize the value of your upgrade.

- 2-day core training – Complete OHM overview with specific focus on new features and functionality and how to integrate them into existing workflow
- Additional day to cover new features and functionality in the Safety Module or Clinical Suite

## Refresher Training for Existing Customers

Whether new employees have joined your team or you'd like to provide users with a refresher course to refine how you use the software, our Client Services Team is available to provide customized packages specifically designed to meet your needs.

- 2-day annual refresher training to ensure your team knows all of the tips and tricks, new features and functions, and a brush up of existing features and functions to utilize OHM to its full potential and increase your ROI
- OHM checkup - Reconfiguration to OHM to support changing business flows or new business objectives
- Business and OHM software consulting services for all of your workforce health & safety needs – Available by the hour, day or week
